

Professor: UFOs should be a legitimate university subject

The Telegraph reports (April 13, 2010) that Professor Philip Haseley has stated, that UFOs ought to be a serious mainstream academic subject. He emphasises, that when you utter that "people believe in UFOs", you suggest that it is a matter of faith. That is not the case, Haseley says. He underscores that there is plenty of evidence. Haseley is employed at the Niagara County Community College in the state of New York. [Read the article here.](#)
